A Versatile Media Player

The Zappiti One 4K HDR integrates a complete Media Center System into a single component. Quiet operation, elegant design, simple plug-and-play installation and amazing audio and video performances make it perfect for every display at home.

Organize your movies and TV shows with the press of a button. Sort by title, actor, artist, director, genre, year of release, or run time. The Zappiti One 4K HDR automatically organizes your movie collection using information from various databases so you can rediscover favorites with your friends and family.

The Zappiti One 4K HDR sets an entirely new standard. The all new Zappiti One 4K HDR is equipped with an internal 3.5" SATA HDD bay hot swap function (up to 16 TB) and offers powerful Wi-Fi 5G and Ethernet gigabit network capability. Always prefer the Lan connection over the Wi-Fi for best results.

Display the DVD, Blu-ray and UHD menus and access to the additional contents, director's cut or theatrical version, bonus and extras, bookmarks, etc. This feature is compatible with both ISO and BDMV (DVD, Blu-ray, Blu-ray 3D and UHD). If you do not want to display the menus, you can start a movie immediately without trailers or warnings. The seamless branching is also supported for perfect gapless playback on director cut editions.

The Zappiti One 4K HDR works with of Zappiti products so that you can share your collection with any television in the house. So with "Zappiti Share", you can benefit from a true multiroom video system. It supports the majority of digital audio and video formats, including the most modern HEVC video codec with one billion colors (10-Bit color encoding), all 3D video standards and features heavy and solid chassis, 2.0 HDMI output, UHD 4K 60p, HDR, Dolby Atmos, DTS:X for the best possible home entertainment experience.

Zappiti One 4K HDR
